The Supreme Court of American Business

There is a court that judges American Business... a court whose decisions are absolute—final.

It is the greatest American household—your family and mine. It passes judgment on every American Product... on the quality and price... on the package... on the merchant who sells it.

It is the buyer who has the power to judge whether or not an industry shall survive... whether the service is worthy and the price is fair.

It is not by accident nor by tricks of words that products in highest

favor with the public are those that are advertised most.

Advertising is the force which makes possible national distribution of products... makes possible large scale manufacturing which brings down prices. Today you may buy the best of anything at the lowest price.

Every national advertiser knows that he cannot exist without maintaining and improving quality... without the approval of the supreme court of American Business.

Public efforts lauded

Administrative staff members were told in a recent Richmond address by Mrs. Florence Kerr, assistant commissioner of the WPA, that the costs of our constructive efforts in the work of peace are small indeed in comparison to the infinite and tragic costs of war, which we will have to bear if we fail or falter in our present efforts as Europe, before us, has faltered and failed. She continued that "it is because Jesus paid the price of redemption that we may have it freely without cost."

It is an unusual offer. Isaiah invites the buyer to make his purchase "without money and without price." Does that mean that the thing for sale is cheap or without price? Far from it, for it is priceless. Salvation is free for the sinner, but the price of redemption is the blood of Jesus. It is because Jesus paid the price of redemption that we may have it freely without cost.
